

# Cleaning up the world

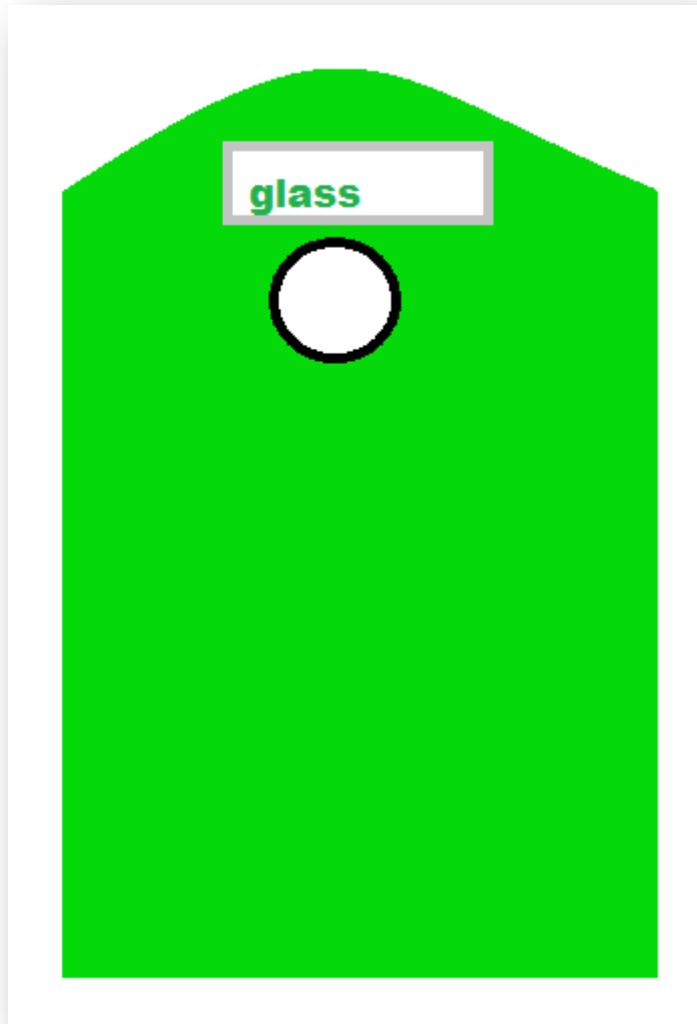

We must **clean the world**, because if we do not do it, our planet will get dirty.

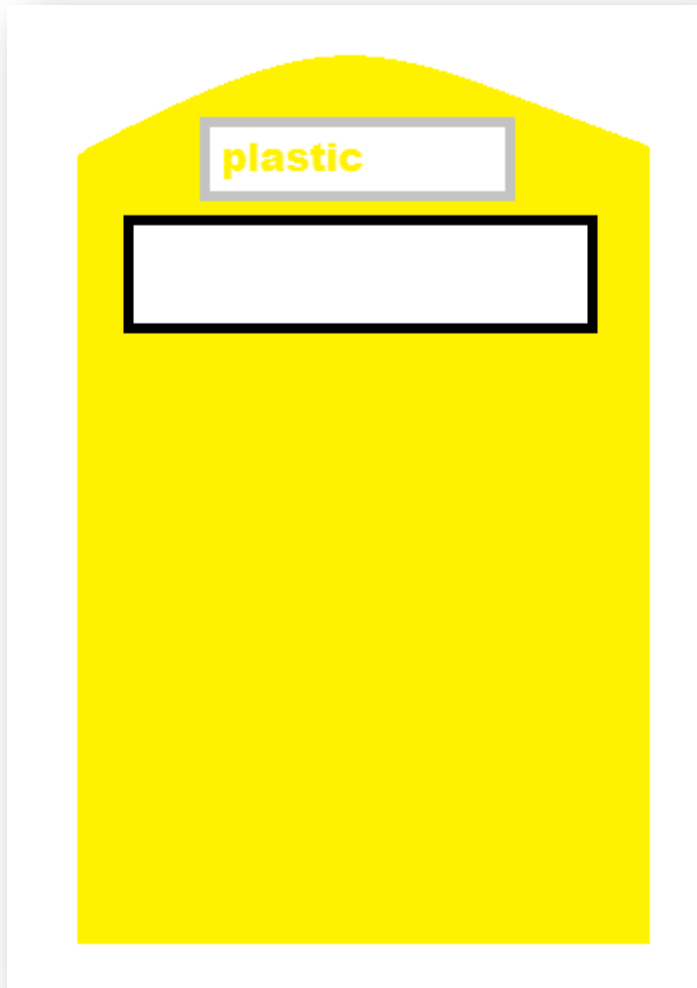

# Recycling

To help our planet we can recycle litter. There are special bins for rubbish we can recycle. They are green, blue, white and yellow.

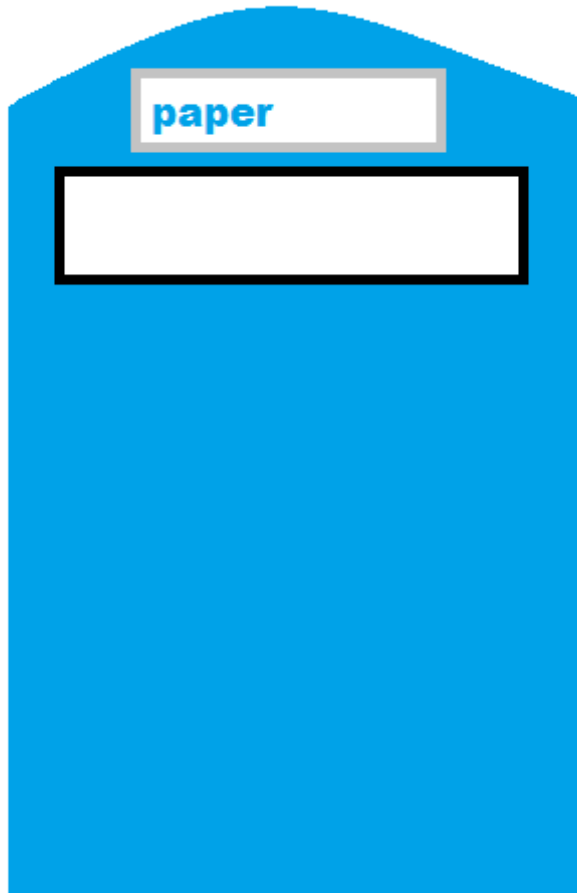

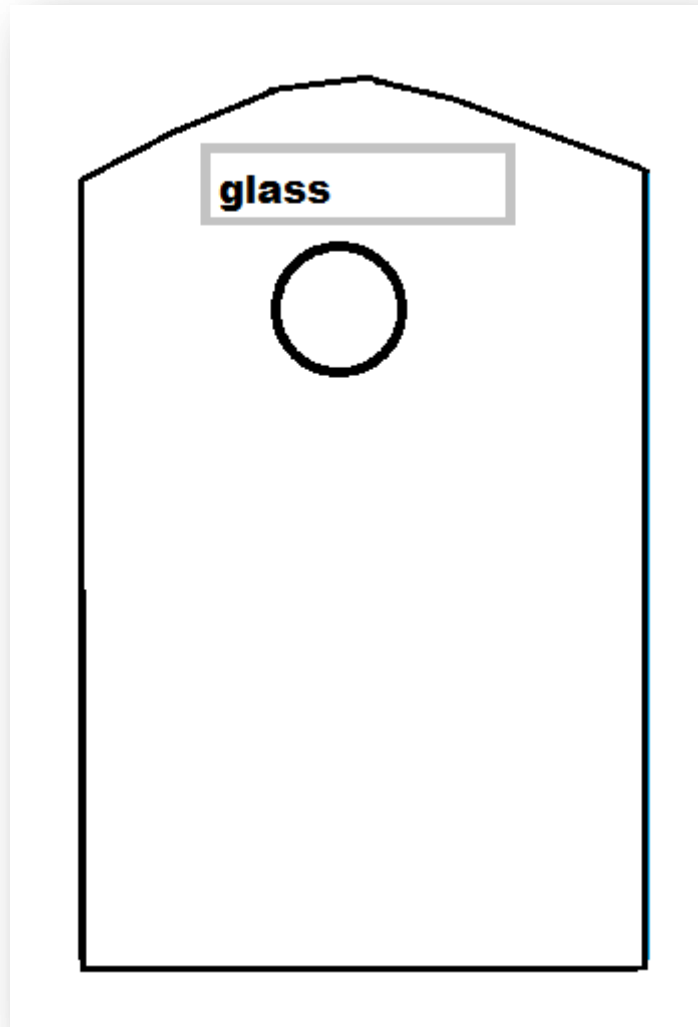

**Into the green bin  
we put coloured  
glass.**

**Into the yellow  
bin we put plastic  
and metal.**

**Into the blue bin  
we put paper.**

**Into the white bin  
we put  
colourless glass.**

# Cleaning up after our pets (dogs)

In the cities people must clean after their dogs.

# Electronic waste

To the special bins we put:

- bulbs
- phones
- clocks
- televisions
- computers

Preparing this presentation I used information  
and photos from the Internet.
