

## **An Englishman in New York: the UK and the USA**

So you speak British English, but when you arrive in New York, will you be able to understand and communicate with New Yorkers who sound very different?? There are also those US idiomatic sentences, which at first hearing make no sense at all! Well, in his session Leslie shares the view of an English man who arrives in a foreign country, the USA, and who thinks that he is a native speaker in America. Actually, he is not quite a native speaker 😊 there. During his travels he discovers that New York is full of wonderful tourist attractions and there are many interesting facts and figures, and guess what! You can take a tourist attraction ride around New York on a Red London Bus. So, let's enjoy the Big Apple and the truly flexible English language, as well as some tunes played live by Leslie Mazur - Park, whose workshops are always coloured with some musical moments.

Class 7a had this great opportunity to participate in Leslie's fantastic workshops on 25<sup>th</sup> of October 2022. All the students and teachers- Anna Stec and Barbara Zawisza were thrilled to sing and dance along with Leslie.
